

Denise Gabel

Author • Speaker • Can-do-ologist™

Denise is a Can-do-ologist. She is a person who sees life through the lens of *can*. The key to her success – both professionally and personally – comes down to how she sees opportunities that are presented to her, and how she tackles challenges that cross her path. She knows that she *can* tackle anything. And she does.

As with most Can-doers, Denise finds joy in empowering others to embrace the power of *can*. In fact, she's made it her life's work to do so. She encourages everyone she meets to stand in their authentic power, realize that they *can* generate their own happiness, and support leaders and organizations in creating a vibe that attracts Can-doers. Denise can't harbor the can-do mindset for herself. She has to share it. Well, she *can* share it, and she does. And in doing so, she's built a passionate community of Can-doers.

Denise is an international bestselling author, professional speaker, and mentor on the power of change. During her tenure as the Chief Innovation Officer of the Filene Research Institute, she led the prestigious i3 (ideas, innovation, implementation) program throughout the United States and Canada. Most recently, Denise served as Chief Operating Officer at the Northwest Credit Union Association. Throughout her professional career, she has embraced (and inspired others to embrace) living with a can-do mindset. This has helped her and the teams she has led get the *right* things done with enthusiasm.

Denise is the most dynamic, engaging speaker and emcee: first class comes to mind, along with above and beyond! If you have an opportunity to use her vast knowledge, I highly recommend her.

Nancy C. Hutchinson

SVP Marketing &
Business Development

Spend an hour with Denise. It will change your life.

... or several hours as you invite Denise Gabel's can-do mindset into your life. Today. Right now. Because anything is possible. You can take on the world. Only you are standing in your way.

Denise is a Can-do-ologist. Didn't know that was a thing? Well you will soon, as you learn how anything is possible with a Can-Do Mindset. Her hand is stretched out, inviting you to stand in your authentic power, generate your own happiness, and help your company create a vibe that attracts can-doers.

The Can-Do Mindset will ...

- Empower you to take action, even during times when you don't realize can is still in your vocabulary.
- Uncover that the greatest power is one that isn't perfected in a gym ... it's built upon from within. There is power in choice. More power than you know.
- Give you permission to focus on accomplishing the *right* things, despite any circumstance.

Imagine what living with a can-do mindset can do for you. Denise knows the possibilities that await. She lives this and helps others live it, too.

Speaking

Invite Denise to empower your team of Can-doers or soon-to-be Can-doers. A can-do mindset can be learned. It can be nurtured. It can be built upon. It can be embraced. And, a single can-doer within your team can create a rippled effect within your organization.

The can-do mindset can ...

- Inspire your team to make things happen ... with enthusiasm.
- Break down silos and build community.
- Encourage fresh thinking, innovation, and change.
- Improve the vibe within a team and an organization.
- Lead to higher levels of productivity, performance, and retention.

Denise is passionate about growing can-do leaders, building strong corporate can-do-cultures, and inspiring people to not just embrace change, but drive it. Through her stories of possibility, potential, and learning through challenges, Denise can inspire your team to stand in their own power, realize that they hold the key to success, and ditch the "can'ts" for a more fun, and way more impactful vocabulary of "cans."

Denise accepts a limited number of speaking engagements, one-on-one and group coaching sessions, and training and workshop facilitations each year.
